

# 3M™ Versafo™ M-100/M-200 Faceshield

## Technical Data Sheet

### Description

A lightweight faceshield that provides respiratory, eye and face protection when suitably connected to an AS/NZS1716 compliant air supply system.

### Features

- Lightweight, with excellent balance
- Fully-adjustable suspension that includes textile straps for optimal fit and weight distribution
- Multiple size adjustment options allow for a comfortable fit
- A air deflector allows users to direct the airflow down or into the face for increased control and comfort
- Visor design combines excellent peripheral and downward vision with good optical clarity
- Coated polycarbonate visor provides added chemical and scratch resistance and high impact protection
- QRS (Quick Release Swivel) breathing tubes allow fast and easy snap on/off connection
- Easily removable parts allow simple cleaning, maintenance and replacement
- Most user interface/adjustment points highlighted in blue for convenience
- To suit a wide range of needs, industries and applications, 3M™ Versafo™ M-Series headtops offer face seals and shrouds in various fabrics
- Accessories include ear-muffs, peel-off's, various head covers and a chin strap
- A length-adjusting breathing tube is also available.
- Many parts are common to all 3M™ Versafo™ M-Series headtops, meaning reduced inventories and downtime
- M-200 offers a full headtop protection, eliminating the need of head inserts being needed.

\*M-200 will eventually replace M-100 Series Headtop

### Applications

There are many workplace applications, including:

- Grinding
- Polishing
- Spraying
- Powder Coating
- Chemical processing

Suitable for use with TR-800, TR-600, TR-300+ and Jupiter Turbo unit and V-500 Airline

### Standards

The M-Series headtops meet the performance requirements of Australian Standard AS/NZS 1716:2012:

- when connected to the 3M™ TR-800, TR-600, TR-300+ and Jupiter™ Air Filter Unit.
- when connected to the 3M™ Air Regulating Valve or 3M™ Vortex™ Regulators.

AS/NZS1337.1 compliant high impact eye/face protection.

### Operation/Cleaning

Users need to be trained in the safe operation of this equipment. Routine checks must be carried out in accordance with the user instructions. Cleaning should also only be carried out as specified in the user instructions.

### Specifications

Versafo™ M-100 Face Shield	
Weight	544g (without breathing tube)
Storage Conditions	-30°C to +50°C and <90% humidity
Operating Temperature	-10°C to +55°C and <90% humidity
