KEY FEATURES

HOW TO USE

1

Peel cover from one side of the adhesive pad and attach to the E-Catch. Peel cover from other side and attach to a non-porous location on the device.

2

Secure E-Tether to E-Catch by first feeding loop through the connector point, then feed the E-Tether back through the loop to create a choke.

Press side-release buttons to hot-swap between different electronic devices. Ensure attachment dock 'clicks' back into place.

3

If anchoring to clothing, ensure you clip the tether onto thick fabric such as your collar or pocket lining.
