

## Dräger Mobile Printer BT Accessories

The Dräger Mobile Printer BT facilitates wireless printing from any compatible Dräger testing device within a 15-metre radius. You secure the small, lightweight mobile printer to your belt with a retaining clip. It is easy to operate, using only two buttons. Illuminated symbols provide you with information about the status of the device.

## Benefits

---

### **Convenient Bluetooth® communication**

The Dräger Mobile Printer BT is a Bluetooth® printer. This type of connection enables you to print from any compatible Dräger testing device within a radius of up to 15 metres. Simply position the printer within range of the Dräger testing device as the situation requires: whether up-close or further away.

---

### **Easy pairing**

The Dräger Mobile Printer BT uses near field communication (NFC) technology. To pair it with another NFC-compatible device, simply hold the two Bluetooth® devices up to each other.

---

### **Light weight**

The printer weighs only 250 grams (including battery and paper), so it can easily be carried on a utility belt. Now, you can make printouts any time without having to interrupt your workflow.

---

### **Easy to operate**

The device is extremely easy to operate, using only two buttons: the OK button switches the printer on and off. The other button controls the paper feeder. Push both buttons simultaneously to perform a self-test on the printer. The three illuminated LED symbols indicate the current status of the device: error messages, battery charge level and Bluetooth® connectability.

## Accessories

ST-8448-2006

### Printer paper

The high-quality thermal printing paper with a 40 mm roll diameter is suitable for the Dräger Mobile Printer BT. In a packaging unit of 5 paper rolls it is available in two different versions:

- 10 years long term stability with marking
- 25 years long term stability with marking

## Services

D-2331-2016

### Product Service

Our product service provides support with different service packages – in our workshops or directly on your premises. Care, maintenance and servicing are crucial for safety and reliability – but careful maintenance and care are a must, even when it comes to commercial considerations. Preventive checks, ongoing care and use of original replacement parts improve the longevity of your investment.

D-2335-2016

### Training

The Dräger Academy has shared its solid, practical knowledge for over 40 years. We hold more than 2,400 training courses each year, on a range of over 600 topics, with more than 110 authorised trainers. We equip your staff with practical knowledge and ensure that what they learn can be applied effectively, both day-to-day and, more importantly, whenever critical situations occur. We will be pleased to develop a customised training programme for you.

### Rental Service

From bridging a temporary shortage of equipment to procuring special equipment for applications involving specific requirements: If you only need to cover a temporary higher demand, then DrägerRental Service with over 65,000 pieces of rental equipment is an economical alternative to purchasing. Fast, straightforward and with a wide range of additional services available upon request.

D-2329-2016

---

### Shutdown Safety Service

In need of a comprehensive safety solution? Is there a long list of legal requirements you have to meet, and are you pressed for time? Balancing maximum efficiency with optimal security can pose major challenges. We can help you achieve that balance. Our Shutdown Safety Service is a solution that takes into account all the necessities of downtime and especially your individual requirements.

D-2332-2016

---

### On-site Safety Service

Whether through a rental shop, personnel services or comprehensive safety management, our On-Site Safety Services provide support in all projects where there are particular safety risks – not to mention normal day-to-day business.
