# POWER COOLER MISTING FAN

## DESCRIPTION

The THORZT Power Cooler Misting Fan is a unique cooling system that creates a comfortable, cool environment both indoors and outdoors.

Under the action of rotating disk and misting device, water turns into ultra small droplets by the centrifugal force, which enlarges the surface of evaporation tremendously. With the airflow blown by a powerful fan, it greatly enhances the wind speed of the liquid surface, so that the evaporation of water is much higher than average. During the evaporating, it absorbs heat, reduces the temperature and improves the air humidity.

## FEATURES & BENEFITS

- Robust design with wheels for mobility - one person move
- Reduces temperatures by up to 15 degrees Celsius
- Cools up to 300m<sup>2</sup>
- Integrated easy fill 60L water tank
- Plays a vital role in heat illness prevention

## APPLICATIONS

- Industrial
- Athletics
- Hospitality
- Events
- Agriculture
- Military

## PRODUCT DETAILS

**Water Flow:** 0-30kg/hr (adjustable)

**Air Flow:** 560m<sup>3</sup>/min

**Effective Area:** 100-300m<sup>3</sup>

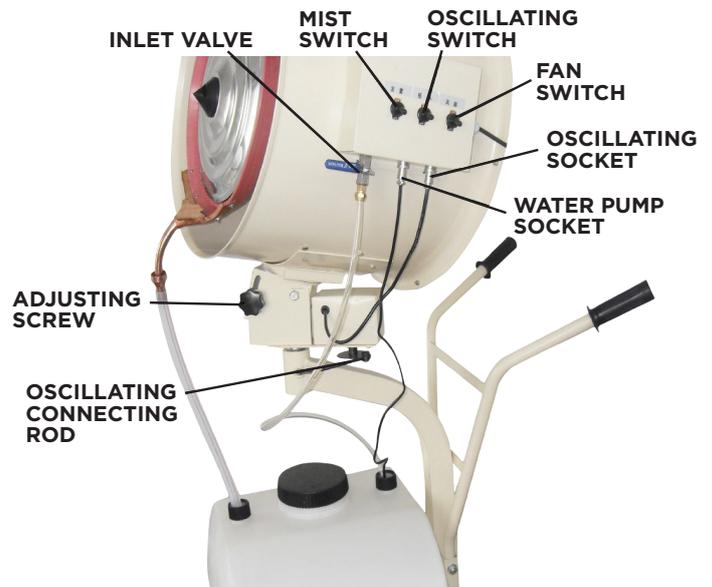

**Water Tank Capacity:** 60L

**Power:** 550W

**Voltage:** 220V/50Hz

**Net Weight:** 43.6kg

**Dimensions:** 90mm x 650mm x 1600mm

MF

## USAGE AND CARE

- Environmental operating temperature: 0-45°C
- Use clean, neutral tap water to clean the water head
- Clean the flying's on the atomizer and fan cover regularly
- Do not operate the water pump without water and clean it regularly
- If the humidifier is not spraying or the amount of spray is reduced, first clean the atomizer and water pump inside the water tank, then check the water pipe for blockages
