3L HYDRATION BACKPACK

THORZT
HYDRATING HARD WORK

DESCRIPTION

DRINKING WHEN YOU ARE THIRSTY TYPICALLY REPLACES ONLY HALF THE FLUID LOST THROUGH SWEAT.

Conversely, engaging in a Drinking Program maintains your optimal hydration levels and you do not become dehydrated. Program Drinking involves drinking small amounts of fluid frequently.

So ensure you have access to fluid at regular intervals - the THORZT Hydration Backpack keeps hydration on person at all times. It's slimline pack is made from tough and durable lightweight materials with closed cell insulation that keeps water cool for hours

FEATURES & BENEFITS

- Stylish, slimline design.
- 3 litre bladder.
- Closed cell insulation keeps water cool for hours.
- Velcro tabbed protective cover.
- Fully adjustable straps with quick release buckle to reduce risk of snag injuries.
- V-Form retro reflective strips for low light visibility.
- High-Vis Yellow and High-Vis Orange colour options to provide added safety.
- Neoprene insulated hydration tube:
 - 5.5mm diameter rapid liquid flow tube.
 - Quick release for easy cleaning.
 - Bite valve automatic flow/shut-off for hands free hydration.
 - UV resistant.
- 3L bladder:
 - Ethylene-Vinyl Acetate Copolymer (PVA), BPA-Free.
 - Large 55mm diameter filling port (accommodates addition of ice).
 - Flexible, shock-proof.
 - Slide lock opening for hygienic cleaning.

APPLICATIONS

- Fitness and Sport
- Camping
- Cycling and adventures
- Work sites
- Family use

HOW CLEAN THE THORZT BLADDER BEFORE FIRST USE/AFTER USE:

THORZT
HYDRATING HARD WORK

- 1. DISCONNECT**
Disconnect the tube at both the bladder end (by twisting the tube) and the bite valve by pulling the tube out.
- 2. SUBMERGE**
Submerge both in warm soapy water for 10-20min
- 3. FILL**
Fill reservoir 1/2 full with warm soapy water (you can use a teaspoon of both baking soda and vinegar mixed with warm water as well)
- 4. SHAKE**
Shake the bladder to mix.
- 5. SOAK**
Let it soak for 10-20min
- 6. REATTACH**
Reattach the bite valve to the tube and the tube to the bladder
- 7. DRAIN**
Drain the mixture through the tube, pressing on the bite valve to allow water to flow all the way through for 5-10 sec
- 8. RINSE**
After washing, rinse away the cleaning solution in the bladder and drink tube by flushing warm tap water through it
- 9. DRAIN**
Drain all remaining water
- 10. DRY**
If storing, allow to dry completely

FYI: A STORING TRICK: IF YOU USE THORZT POWDERS OR LIQUID CONCENTRATE IN YOUR BLADDER, YOU MAY WANT TO CONSIDER FREEZING IT AFTER WASHING AND DRYING IT IN-BETWEEN USES.
