OUR COMPANY PHILOSOPHY: OUR VISION IS SAFETY

Welcome to the 10th Edition of the VISIONSafe Catalogue, your comprehensive guide to our latest range of personal protective equipment (PPE) and safety products. We are proud to present our latest catalogue as a testament to our commitment in providing the highest quality safety solutions to our customers.

Our company has been at the forefront of the safety industry for over 25 years, and with each edition of our catalogue, we aim to showcase the latest and most innovative solutions to meet your safety needs. We understand that every industry has unique safety requirements, and we have made it our mission to provide customised solutions to meet these needs.

We take pride in our ability to offer superior customer service and support. Our team of safety experts are always available to answer any questions you may have and provide guidance on the best safety solutions for your business. We understand that safety is not just a requirement but a fundamental right of every worker, and we are committed to helping you ensure the safety of your workers.

In our 10th Edition, we have expanded our range to include new products in eye protection, hearing protection, headwear, cylinder restraints and more. We have also updated our existing product lines with new designs and features to ensure that you have access to the latest and most effective safety solutions.

At VISIONSafe, we believe that innovation is the key to providing effective safety solutions. We are constantly striving to improve and expand our product offerings to better serve our customers. Our dedication to innovation has helped us become a trusted name in the market and a preferred supplier for many industries, including mining, construction, manufacturing, and healthcare.

We hope that you find this latest edition informative and useful, and we look forward to helping you meet your safety needs. Thank you for choosing VISIONSafe as your partner in safety.

SAFETY UNDER THE SUN

UVeto Australia is a specialist brand of sun protection apparel focused on the development of innovative products to protect the wearer from dangerous UVR (Ultra Violet Radiation) for both work and leisure. All of our sun safe products are made from quality fabrics and provide a UPF 50+ (Ultra Violet Protection Factor) rating where possible, so whether you work outdoors or spend your leisure time in the open air - you can trust UVeto Australia products to help minimize the risk.

NEWCASTLE HATS

The Newcastle Hats collection includes stylish Australian Made work and outdoor bush hats.

From humble beginnings in NSW in 1988, the Newcastle Hats range pioneered the concept of the washable, squashable hat. Now manufactured in WA, this range of innovative headwear designs is highly customisable so hats can be tailored to suit customer's needs. Excelling in both small custom runs and large corporate orders, flexibility of production and quality of product are the hallmarks of Newcastle Hats.

LEATHER COLLECTION

Authentic Italian leather meets classic Australian design in the latest additions to the Newcastle Hats range.

The Paterson Hat and Murray Hat both combine rugged durability with the quality of product Newcastle Hats is known for.

These all-weather hats are handcrafted with individually selected hides in our West Australian workshop, with the uniqueness of each leather hide and hat perfectly matching our bespoke approach to hat creation.

PATERSON HAT

- Named for our favourite of the Australian bush poets, the Paterson Hat is the perfect all weather companion for our wide brown land
- Crafted from sueded Italian leather and finished with a plaited synthetic felt band
- Featuring a wide brim with a rolled edge supported by brimlock for maximum protection from the elements, rain or shine
- Soft, high quality leather shapes to the wearer's head over time to ensure a perfect, comfortable fit
- Internal elastic trims for supreme comfort

ALL-OVER PROTECTION

VISIONSafe has always been at the forefront of design when it comes to ensuring safety, comfort and maximum usability of our products. The VISIONSafe range of hand and body protection is the natural extension of this philosophy – products designed to provide maximum protection and safety while minimising movement restrictions in the workplace. Focusing on the use of high quality, durable materials and designed to suit a wide variety of workplace applications, these specialty products continue to meet daily demands in even the toughest workplace.

CUSTOM SAFETY VESTS

- Custom made to suit specific industry & company requirements
- Personal protective equipment designed to have high visibility and reflectivity
- Easily detected in bad weather or where visibility may be an issue
- Options to suit traffic police, traffic management construction, rail, airport, fire and rescue, cyclists, motorcyclists and more
- Size options: S-XXXL

OZIVEST
CUSTOM SAFETY VESTS

OZIVEST INDUSTRY SPECIFIC SAFETY VESTS ARE 100% AUSTRALIAN MADE AT OUR PRODUCTION FACILITY IN MUNDARING, WESTERN AUSTRALIA

SUN GLOVE AIR

- UPF 50+ rated fabric
- Cool and comfortable to wear
- Fingertips exposed for maximum dexterity
- Synthetic leather reinforced wear areas
- Suitable for outdoor activities
- Size options: S-M, L-XL

Part No **Colour**

BACK SUPPORT BELT

- Encourages the use of correct lifting techniques by reducing the tendency to bend at the waist
- Tapered abdominal support panels
- Fully enclosed spring steel stays for flexible contoured support
- Shoulder suspenders with smooth glide adjustable clips

Part No **Size**
BSB-S Small (72-81cm)
BSB-M Medium (82-96cm)
BSB-L Large (97-119cm)
BSB-XL XLarge (117-142cm)
BSB-XXL XXLLarge (143-168cm)

AIR SUSPENSION KNEE PADS

- Shock Absorbing system creates an air cushion to absorb pressure and movement
- Suitable for both indoor & outdoor use
- Angled fastening arms to prevent chafing and irritation
- Hard plastic shell for puncture protection

Part No KP4020

ANTI SLIP KNEE PADS

- Comfortable padding on and around the knee
- Relieves pressure on critical areas
- Non-slip grip prevents injuries caused through kneeling on slippery surfaces
- Angled fastening arms to prevent chafing and irritation

Part No KP4019

OKTOLOCK™

- Securely fastens cords, hoses, or cables to railings or pipes up to 5cm in diameter
- Helps eliminate potential trip hazards
- Strong, flexible, durable and dielectric PC-ABS plastic
- Manufactured in the USA
- 34kg weight capacity

| Part No | Colour |

CUSTOMISE WITH CUSTOM PRINTING

Customise your safety clip with your company's name, logo and contact information or promote your core safety messages by printing them on your glove clips, hard hat clips and more.

Custom printing in a variety of colours can be applied to Glove Guard®, Utility Guard®, Handi Klip®, Hard Hat Goggle Guards, Hold-All Catcher Clips, Oktolock™.

THE ULTIMATE SKIN PROTECTANT

Derma Guard supersedes traditional barrier creams, and is an efficient and cost effective method of providing a skin protection solution for your workforce. Derma Guard is much more than a simple barrier cream, and in fact offers both a modern solution to many skin hygiene problems as well as providing unparalleled protection against a huge range of skin irritants.

DERMA GUARD - THE ULTIMATE SKIN PROTECTANT

WHAT DOES DERMA GUARD DO?

- Protects the skin against paints, oils, greases, petrol, diesel, strong odours, carbon, fiberglass, resins, glues (including super glue), and most solvents
- Provides temporary emergency protection against many acids and bases
- Increases comfort of gloves by reducing excess sweating
- Helps make latex and vinyl gloves more comfortable by placing an invisible barrier between the latex and the skin, reducing glove irritation
- Antibacterial and provides a proven biological fluid barrier
- Works under the harshest conditions to provide skin protection against a huge range of irritants
- Assists with skin conditions such as dermatitis, eczema and psoriasis
- Moisturises, nurtures and protects dry, cracked or damaged skin
- Helps prevent skin splits and cracks from reappearing
- Helps the skins natural defences

HOW DOES DERMA GUARD WORK?

- Locks onto your skin to form an invisible, non-greasy, microscopic mesh over your skin providing a strong barrier to anything trying to attack your skin
- Does not affect the skin's ability to breathe and perspire
- Provides top quality skin moisturisers to help the skins natural defenses repair damaged, cracked or split skin

WHAT MAKES DERMA GUARD UNIQUE?

- One application lasts 4 hours despite repeated washing
- Can be applied to any area of your skin
- Sinks right into the skin rather than sitting on the skin
- Utilises Silicon Triad® process
- Light, non-greasy cream that sinks into the skin within 3 minutes of application
- Clinically tested to reduce wash up times by up to 60%
- Sunscreen friendly - apply prior to applying sunscreen

OTHER FEATURES OF DERMA GUARD!

- Non toxic
- No added fragrance
- Contains high-grade pharmaceutical moisturisers to prevent the skin drying out
- Food safe
- Contains Aloe Vera, Vitamin E, Lanolin and Palm Kernel Oil to nourish skin

DERMA GUARD CREAM

- Available in a pump pack or convenient tube
- Aeroplane friendly

RISK FREE DERMA GUARD TRIAL

We believe Derma Guard will outperform any cream or gel based skin protection systems currently available in the marketplace – and we're prepared to prove it. VISIONSafe is offering a risk free trial program for authorised distributors to offer to their customers.

Contact our office for more information on the trial terms and conditions.

Available only through VISIONSafe distributors.

>>> HEARING PROTECTION >>>

HEARING PROTECTION

Protecting your hearing in loud environments is crucial, and traditional options like earmuffs and earplugs offer effective solutions. Innovative solutions like Plugfones® combine hearing protection with high-quality audio. Regardless of your choice, prioritizing hearing protection is essential for maintaining your long-term auditory health.

SOVEREIGN™ PLUGFONES®

- In-ear noise reduction of 22dB (Single Tier Foam Eartips/ ComforTiered Silicon Eartips) or 19dB (Single Tier Silicon Eartips)
- Wirelessly connects to Bluetooth enabled smart devices, including Apple and Android phones and Bluetooth radios
- Eartips contour to ear canal for superior comfort
- Premium speakers emit a more dynamic sound
- Truly cord-free with all controls built directly into the earbud
- Up to 24 hours play time: 6 hours from the Plugfones set with another 18 hours in reserve in the portable charging case
- Water resistant and sweat proof
- Includes interchangeable small, medium and large eartip options in both silicon and foam

Part No PF-PS-BB

- Unique and effective earplug/earbud hybrids - combining comfortable noise-reducing earplugs with high quality speakers
- Ideal for: workplaces, travel, home use, gardening and more
- Ensure workers are protected from hazardous noise levels while boosting productivity and morale
- Answer calls with the tap of the finger, while the noise isolation microphone identifies, isolates and reduces environmental noise
- Certified to ANSI S3.19-1974 noise reduction standards and OSHA compliant

AUDIO EARPLUGS
CONNECTED & PROTECTED

SOVEREIGN™ DUO PLUGFONES®

- All the features of the Sovereign™ Plugfones®, in a set of two
- Use one set while charging the other to ensure there is no interruptions to your listening experience
- Up to 30 hours play time: 6 hours from each set of Plugfones® with another 18 hours in reserve in the portable charging case

Part No PF-PS-BRBB

22 - 23 >> HEARING PROTECTION

FREEREIGN™ PLUGFONES®

- Wirelessly connects to Bluetooth enabled smart devices
- In-ear noise reduction of 29dB (ComforTiered Foam Eartips) or 27dB (ComforTiered Silicone Eartips)
- Up to 12 hours of play time from a full charge
- Fast charge technology gives 2 hours of play time from 5 minutes of charging
- Easy access controls with rugged buttons allow you to play, pause, answer or end calls, adjust volume and more
- Tear resistant and flexible Tough Cord

Part No PFFR-BK/GR

PROTECTOR PLUS™ PLUGFONES®

- Double-reinforced jack for a secure wired connection
- In-ear noise reduction of 29dB (ComforTiered Foam Eartips) or 27dB (ComforTiered Silicone Eartips)
- Easy access controls with rugged buttons allow you to play, pause, answer or end calls, adjust volume and more
- Tear resistant and flexible Tough Cord
- Includes interchangeable foam and silicone plugs

Part No PFPP-BK/GR

EARMUFF EM-206

- Suits medium to high noise environments
- Certified to AS/NZS 1270:2002 SLC₈₀ 29dB, Class 5
- Multi position headband - over head, behind neck, with up/down ear cup adjustment
- Central pivot headband on cup for an even seal and comfortable fit
- Tough ABD headband and cups
- Ultra-soft cushions for added comfort and increased noise protection

Part No EM-206

BOTTLECHOCK

BOTTLECHOCK Cylinder Restraint is an Australian designed and manufactured storage solution system for gas cylinders, drums, piping and other cylindrical objects. Tried and tested in workshops and harsh outback conditions across the country, the unique design and rugged functionality of the **BOTTLECHOCK** system stands out from the pack of cylinder restraint options.

Stainless steel components matched with either galvanised or stainless steel brackets and a flexible UV stabilised nylon restraint, **BOTTLECHOCK** is designed for cylinder security in both fixed positions and while in transport, creating a safer working environment. Available in a wide range of sizes to suit a diverse array of cylinder quantities and sizes, **BOTTLECHOCK** has a product option to suit almost any cylinder storage requirements.

BOTTLECHOCK CYLINDER RESTRAINT FEATURES

- Purpose designed to keep cylinders secure
- Suits gas cylinders, oxygen tanks, fire extinguishers, oil drums etc.
- Grips around and keeps in full contact with the cylinder
- Restricts both horizontal and vertical movement
- In multiple fittings, the BOTTLECHOCK Cylinder Restraint secures each cylinder individually
- Easy to install inside buildings or to vehicle trays using bolts (not supplied)
- Quick cylinder changeover with one pull on straps
- Flexible design makes it easy to 'snap' cylinders into place
- Cylinders don't have to be lifted, helping to prevent injury
- Quick release pins free up space when not in use, and allow use in another location

CONSTRUCTION

- Available with 1.6mm thick galvanised or 316 stainless steel brackets
- Each kit includes both top and bottom fittings
- Size (cylinder diameter): Small (100-145mm), Medium (160-230mm), Medium-Large (230-310mm), Large (245-375mm)
- Available with Red or Hi Vis Yellow chock
- Specialised Oxygen/Acetylene kits available in two sizes, in both galvanised and 316 stainless steel brackets

TECHNICAL SPECIFICATIONS

- Flexible nylon chock material is UV stabilised during manufacture
- All non-metal components are highly combustion resistant & self-extinguishing
- All metal components of the kit with the exception of the mounting brackets are manufactured from stainless steel for strength and corrosion resistance
- Brackets are available in either galvanised steel or 316 stainless steel. The steel brackets are galvanised for corrosion resistance. 316 stainless steel's improved corrosion resistance make it ideal for marine and specialty applications.

BOTTLECHOCK CYLINDER RESTRAINTS ARE PROUDLY AUSTRALIAN MADE AND DESIGNED

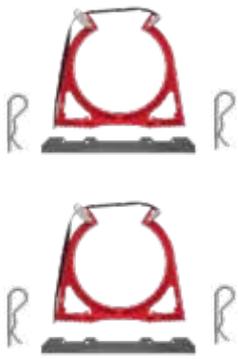

KIT CONFIGURATIONS - WHAT DO YOU GET?

BOTTLECHOCK™

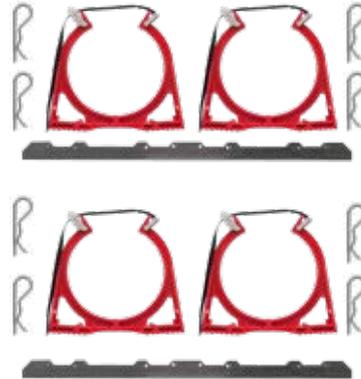

SINGLE CYLINDER KIT

- 2 x BOTTLECHOCK chocks
- 2 x Mounting Brackets
- 4 x Securing R pins
- Available in Small, Medium, Medium-Large & Large

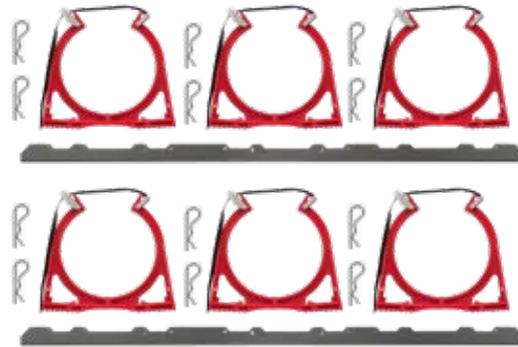

DOUBLE CYLINDER KIT

- 4 x BOTTLECHOCK chocks
- 2 x Mounting Brackets
- 8 x Securing R pins
- Available in Small, Medium, Medium-Large & Large

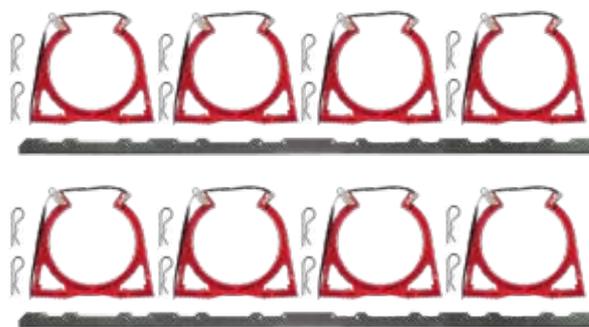

TRIPLE CYLINDER KIT

- 6 x BOTTLECHOCK chocks
- 2 x Mounting Brackets
- 12 x Securing R pins
- Available in Small or Medium

QUAD CYLINDER KIT

- 8 x BOTTLECHOCK chocks
- 2 x Mounting Brackets
- 16 x Securing R pins
- Available in Small or Medium

OXYGEN/ACETYLENE KITS

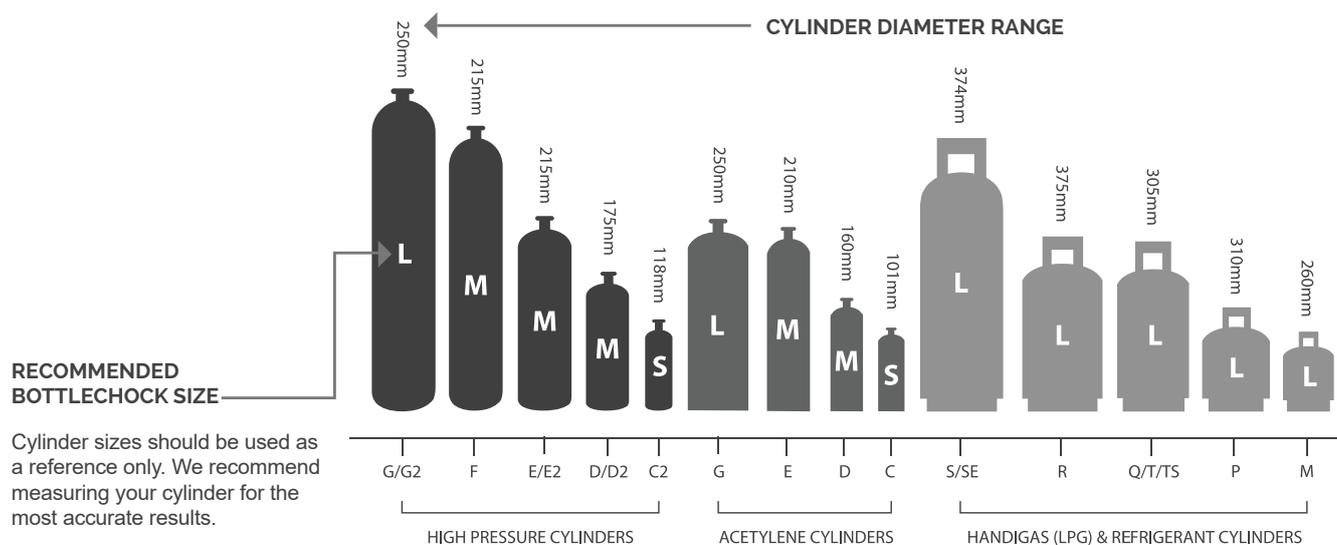

- 2 x Oxygen BOTTLECHOCK chocks
- 2 x Acetylene BOTTLECHOCK chocks
- 3 x Mounting Brackets
- 8 x Securing R pins
- Available in Small or Standard

All **BOTTLECHOCK** Cylinder Restraints are sold as kits & include top and bottom fittings

GENUINELY AUSTRALIAN

THE FAMOUS AUSTRALIAN MADE, AUSTRALIAN GROWN (AMAG) LOGO IS THE TRUE MARK OF AUSSIE AUTHENTICITY. IT'S AUSTRALIA'S MOST TRUSTED, RECOGNISED AND WIDELY USED COUNTRY OF ORIGIN SYMBOL, AND IS UNDERPINNED BY A THIRD-PARTY ACCREDITATION SYSTEM, WHICH ENSURES PRODUCTS THAT CARRY THE LOGO ARE CERTIFIED AS 'GENUINELY AUSTRALIAN'.

VISIONSafe is a proudly Australian-owned and operated family business, dedicated to providing our customers with unique and innovative safety products that are Australian Made. We take great pride in manufacturing high-quality products right here in Australia, at our state-of-the-art facility located in Mundaring, nestled in the picturesque Perth hills. By choosing VISIONSafe, you can trust that you are supporting local industries and purchasing genuinely Australian-made products that prioritize safety, durability, and authenticity.

One of our flagship product lines is the BOTTLECHOCK range of cylinder restraints and Anchor Cylinder Restraints. These restraints are meticulously assembled in our warehouse using locally manufactured components that are exclusively made for VISIONSafe. By utilizing these locally sourced materials, we support the Australian economy whilst ensuring the utmost quality and reliability of our products.

Another key aspect of our business is the renowned Newcastle Hats. We specialize in the design and manufacture of wide-brim hats that are built to withstand the demanding Australian conditions. Our hats are crafted with care, combining materials sourced both locally and internationally. Our dedicated team of skilled sewers and finishers meticulously cut, sew, stitch, label, box, and ship each hat, ensuring they meet the highest standards of craftsmanship and durability.

Adding to our diverse product lineup, we have recently introduced locally manufactured safety vests. At VISIONSafe, we not only design but also sew personal safety vests according to specific requirements. Our factory is equipped with cutting-edge machinery, allowing our skilled workforce to expertly cut and sew each vest. Furthermore, our talented design team creates custom labels and logos, which are seamlessly attached or embroidered onto the vests. Once the vests undergo our rigorous quality control process, they are promptly shipped by our dedicated warehouse staff.

By producing our products in Australia, we proudly support local industries, foster job creation, and ensure compliance with stringent quality standards. When you choose VISIONSafe, you can trust that you are purchasing genuinely Australian-made products that prioritize safety, durability, and authenticity. Look for the iconic Australian Made, Australian Grown (AMAG) logo on our products, the true mark of Aussie authenticity and our commitment to providing you with the very best.

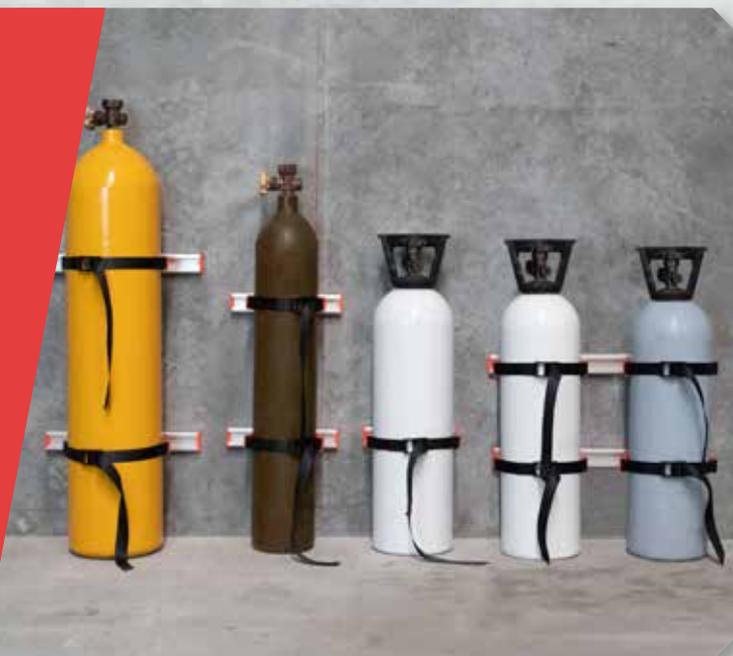

ANCHOR CYLINDER RESTRAINTS

Engineered for your peace of mind, the ANCHOR CYLINDER RESTRAINTS range is designed and manufactured right here in Australia.

They are the latest VISIONSafe products to sport the well recognised green and gold Australian Made logo, in keeping with our company ethos to support local wherever possible.

The innovative two-chock system is size adjustable, and can quickly and easily be reconfigured as needed. The ANCHOR CYLINDER RESTRAINT is manufactured from the same tried and tested materials as our ever popular BOTTLECHOCK range, reimagined as a more versatile solution.

- Quickly and safely secures cylinders to walls, floors, vehicles and more
- Suitable for use in warehouses, laboratories, offices, building sites, hospitals etc.
- Expertly engineered for your peace of mind
- Flexible, sliding positional chocks fit any cylinder within the specified size range
- Easy to safely secure with an adjustable strap
- Heavy duty anodised aluminium mounting bracket for superior corrosion resistance and durability

ANCHOR CYLINDER RESTRAINTS ARE PROUDLY AUSTRALIAN MADE AND DESIGNED

| ACR-4LC-2XLB | 2 (with top and bottom brackets) | Large | 140-350mm | 2 x 740mm |

THE CUTTING EDGE OF SAFETY

The Safety Knife Company range features high quality safety knives manufactured in the United Kingdom using superior materials including Sheffield Steel blades.

These versatile, heavy duty knives are suited to packaging, warehouse and rescue applications. They are ergonomically designed with impact resistant casings and enclosed blades for extra protection for both the user and package.

METAL DETECTABLE PRODUCTS

Designed for food, pharmaceutical and manufacturing industries

Metal detectable products are able to be detected and rejected by metal detection systems and x-rays

Reduces the risk of contamination

Safety Knives are moulded with a metal detectable additive and use stainless steel blades

Please test detectability of all metal detectable products on your detection equipment prior to use

All metal detectable products come in a standard 'Metal Detectable' blue, with Penguin 900 and Fish 600 also available in a range of metal detectable colours to allow for colour coding systems

All modules include detailed instructions for the appropriate first aid treatment and a comprehensive maintenance checklist.

MODULAR FIRST AID KIT

Ideal for: Large Workplaces, Work & Trade Vehicles, Factories & Farms, Sporting Clubs & Restaurants, 4WD & Remote Areas, Fishing & Boating, Caravanning & Camping.

The Modular First Aid Kit is an innovative first aid kit that contains an easy to use 5 module treatment set. The complete set comprises of: Burn Module, Haemorrhage Module, Eye Module, Minor Wound Module & an Additional Stock Module. Each module contains clear and easy to understand first aid instructions and a comprehensive maintenance checklist ensuring the kit remains serviceable. In emergency situations the modular system allows the first aider to react quickly and effectively in providing appropriate emergency treatment.

MODULAR - METAL CABINET

- Tough and easy to identify metal cabinet
- Wall mountable for ease of access
- Conveniently spaced sturdy metal shelves allow easy access to required modules
- Sturdy handle for easy carrying
- Comprehensive maintenance checklist
- Innovative and practical five module set
- Great for workplaces, factories, restaurants and more
- Dimensions: W34.5cm x H47.5cm x D14.3cm

Part No FAWT3MM

MODULAR - HARD CASE

- Tough ABS compartmentalised toolbox carry case
- Supplied with removable wall mount bracket
- Easy view clear module partitions
- Innovative and easy to use five module set
- Comprehensive maintenance checklist
- Great for workplaces, factories, restaurants and more
- Dimensions: W42cm x H32cm x D15cm

Part No FAWT3MH

MODULAR - SOFT CASE

- Hard wearing and highly portable nylon soft case
- Reflective tape and piping to promote kit visibility
- Sturdy handle for easy carrying
- Comprehensive maintenance checklist
- Innovative and practical five module set
- Soft case suits caravans, boats, vehicles and more
- Dimensions: W42cm x H32cm x D15cm

Part No FAWT3MS

Workplace Guide: Low Risk Workplace with up to 50 staff; High Risk Workplace with up to 25 staff

This kit meets or exceeds the requirements in the 'First Aid In The Workplace, National Code of Practice - July 2019' including the requirements of outdoor work, remote work & burn injuries.

SUITABLE FOR USE IN MODULAR FIRST AID KIT & MODULAR PLUS FIRST AID KIT
BURN MODULE

A range of burn gel treatments and dressings to help cool the burn and prevent further tissue damage, aiding the healing process.

CONTENTS

| | |
|---|---|
| Burn gel 3.5g sachet  | 8 |

SAFETY STANDARDS & LENS OPTIONS

VISIONSafe's Safety Eyewear selection offers sleek and functional, high quality eye protection for personnel in most industrial situations. Our diverse range is certified fully compliant by SAI Global with Australian Standards AS/NZS1337.1:2010 and AS/NZS 1067 wherever applicable. As indicated by the presence of the SAI Global Standards Mark on our eyewear, users can rest assured that our products have met the rigorous requirements of both domestic and international quality and safety standards.

AUSTRALIAN/NEW ZEALAND STANDARDS

AS/NZS 1337.1:2010 Personal Eye Protection – Eye and face protectors for occupational applications

This Standard specifies minimum requirements for non-prescription eye and face protectors and associated oculars. They are designed to provide protection for the eyes and faces of persons against common occupational hazards such as flying particles and fragments, dust, splashing materials and molten metals, harmful gases, vapours and aerosols. Requirements for optical qualities and low, medium, high and very high impact resistance are given.

Safety Glasses Impact Rating

Impact protection is specified by the Standard AS/NZS 1337.1:2010. Impact protection is determined by the metres per second in which a projectile travels. A ballistic test rig fires a 6.00mm or 6.35mm ball at speeds of 12m/sec up to 120m/sec

| IMPACT RATING | VELOCITY (METERS PER SECOND) | | TYPE OF PROTECTOR |
|---------------|------------------------------|-------------|-------------------------|
| | 6.0MM BALL | 6.35MM BALL | |
| Low Impact | 13 m/s | 12 m/s | Safety Glasses |
| Medium Impact | 45 m/s | 40 m/s | Safety Glasses, Goggles |
| High Impact | 120 m/s | 110 m/s | Visor Systems |

AS/NZS 1067 Sunglasses and fashion spectacles

This Standard specifies minimum requirements for sunglasses and fashion spectacles and sunglass lenses of nominal plano power - excluding (any) prescription lenses - intended for protection against solar radiation for general use, and social and domestic purposes, including road use and driving.

| LENS CATEGORY | LUMINOUS TRANSMITTANCE RANGE | VISIONSAFE LENS TINT |
|------------------|------------------------------|---|
| 0 | 80-100% | Clear, Amber |
| 1 | 43-80% | Silver I/O Mirror, Blue |
| 2 | 18-43% | |
| 3 | 8-18% | Smoke, Brown, Dark Silver Mirror, Blue Mirror |
| Outdoor Untinted | 80-100% | Clear, Amber |

Sunglasses that comply with the requirements of AS/NZS 1067 should be labelled to state this compliance

AVAILABLE LENS OPTIONS

Smoke Tinted - Smoke tint is ideal for prolonged use outdoors. The smoke tint reduces light intensity without impairing vision or affecting colour transmission.

Clear - Premium optical clarity maximising light transmission.

Brown Tinted - Brown tinted lenses block blue light commonly found in diffused light conditions such as on a cloudy day.

Amber Tinted - Amber tint is recommended for use in low light conditions as it enhances contrast and depth perception. Not recommended for prolonged use.

Blue Mirror - Blue Mirror coating over smoke lens, ideal in the outdoors as these lenses cut glare without interfering with colour perception.

Silver Indoor/Outdoor Mirror - Silver Mirror coating over clear lens (Indoor/Outdoor); lenses are ideal where personnel are constantly moving from interior lighting to exterior lighting.

Brown Indoor/Outdoor Mirror - Brown Mirror coating over clear lens (Indoor/Outdoor); lenses are ideal where personnel are constantly moving from interior lighting to exterior lighting.

Polarised - Polarised lenses cut glare by aligning reflected light waves into the horizontal plane. They allow for the natural perception of colour with no compromise of reds, greens and yellows.

IR3/IR5 Lens - IR3 and IR5 shade lenses protect the eyes from harmful light transmissions emitted during certain gas welding applications, brazing or cutting. NOT suitable for electric arc welding.

Anti-Fog Coating - The Anti-Fog Coating reduces or eliminates fogging on lenses.

LENS MARKINGS - LOOK FOR THESE MARKINGS ON YOUR LENSES

S - General Purpose

I or **F** - Medium Impact

V - High Impact

O - Outdoor Use

P - Polarised

SAFETY EYEWEAR

VU-KLEARPLUS LENS SPRAY

- Alcohol free, germicidal cleaning solution
- Anti-fog and anti-static spray
- Easy to use pump pack
- Suits both prescription and safety glasses, including anti-fog
- For all plastic and multi-coated eyewear lenses, camera lenses, computer screens and mobile phones
- 30ml Lens Cleaning Spray

Part No
VUKSPR1

VU-KLEARPLUS FOG-OFF STICK

- Provides anti-fog and anti-static coating to lens
- Suits both industrial and sporting equipment including spectacles, goggles, visors, scuba masks, gas masks etc.
- Simple to apply

Part No
VUKFOG1

VU-KLEARPLUS WIPES

- Alcohol free cleaning towelette
- Available in standard aluminium foil sachets or aluminium free sachets
- Anti-fog and anti-static properties
- 300 sachets in dispenser box
- For all plastic and multi-coated eyewear lenses, camera lenses, computer screens, mobile phones etc.

| Part No | Description |
|-------------|-----------------------|
| VUKDISP | Standard Sachet |
| VUKDISP-ALF | Aluminium Free Sachet |

MULTI FIT SIDE SHIELDS

- Moulded from high impact resistant polycarbonate
- Designed to attach easily to standard prescription frames
- ANSI Z87.1 and OSHA compliant
- Can be removed and refitted as required
- Clear: allows maximum light transmission
- Tinted: adds UV protection and minimises glare
- Clear Blue: reduces glare and improves clarity
- Size options:
 - Small - Medium: to fit frame height 30-40mm
 - Medium - Large: to fit frame height 32-54mm

| Part No | Tint | Size |
|----------------|--------|----------------|
| MS-EO-ML-C B52 | Clear | Medium - Large |
| MS-EO-ML-T B53 | Tinted | Medium - Large |

| MS-EO-SM-T B27 | Tinted | Small - Medium |

MULTI HAZARD SHIELDS

- Moulded from pliable medical grade polymer
- Extra coverage, protection and comfort for extended wear
- Ideal for medical/surgical, light industrial and personal use
- Designed to attach easily to standard prescription frames
- Conforms to fit any frame shape (small, medium or large) while moulding to individual facial features
- ANSI Z87.1 and OSHA compliant

| Part No | Tint |

| MS-EO-S-C B22 | Clear |

ADDITIONAL PROTECTION FOR YOUR PRESCRIPTION FRAMES

BELT CASE

- Eyewear case protects against dust, moisture etc.
- Durable nylon
- Zippered case
- Belt loop for secure attachment

Part No B Case

MICROFIBRE CLEANING CLOTH

- Re-useable, washable lens cleaning cloth
- Handy neoprene tissue box style pouch
- Cloth suitable for all lens types
- Clip attaches easily to key ring, belt loop etc

Part No NTB

HARD HAT GOGGLE GUARD®

- Secures goggles, safety glasses or sunglasses to hard hat
- Fits front brim of most hard hats
- Holds a variety of eyewear
- Made of strong, durable plastic
- Holds pens, pencils and carpenter pencils

Part No Colour
HHGG Assorted Colours

EASILY SECURE YOUR HEADLAMP

With the Goggle Guard® Accessory Kit

Part No: HHGG AK

CORDS

- Adjustable to suit a variety of glasses
- Strong synthetic weave
- 5 colour options

Part No Colour

MYSTRAP

- Durable and comfortable design
- Adaptable to eyewear frames of a variety of shapes and sizes
- Non-slip, reliable hold
- Inconspicuous style

Part No MyStrap

LIGHTING THE WAY

VISIONSafe's extensive range of safety lighting includes specialised lighting for a wide variety of applications. From personal headlamps to customisable mini bars, our staff can assist you to develop the best lighting solution for your requirements.

We have expanded our range with the introduction of innovative beacons designed for industries where vehicle visibility is critical. From the compact Nano LED Beacon, the highly popular Dome LED Beacon complete with remote control, to the slimline Chase LED Mini Bar, we have beacons for most situations. With a focus on durability and performance, trust VISIONSafe to provide high-quality beacons that enhance workplace safety and ensure maximum visibility.

FOXFIRE

- New larger size heavy duty portable signal light
- 20 super bright LEDs
- Magnifier on each LED to increase light intensity
- Front and side illumination
- Operates on 4 AA batteries
- Extra Strong Magnet has 20kg pull strength

- Enhanced water resistance
- 3 Flash patterns: static (constant on), wig-wag (side to side) and flash mode
- Dimensions: H108mm x D50mm x W184mm

| Part No | Colour | Description |

ORIGINAL FOXFIRE

Original Foxfire and accessories are still available for a limited time - please see our Price List for part numbers

PI-LIT® SEQUENTIAL FLARE

- Directs traffic and warns drivers of activity ahead
- New generation 2 flares with improved features
- Flares automatically turn on and synchronise when removed from charging dock (which doubles as a carry case)
- 4 Flash patterns: static, 2 sequential, 1 simultaneous
- Lithium rechargeable batteries with up to 24 hours of continuous use battery life (flash pattern dependent)
- IP67 rated: Dustproof and Water Resistant
- No limit to number of flares in a sequenced chain
- Super bright 360° viewing angle
- Automatically adjusts LEDs to horizontal or vertical orientation
- Magnetic base for quick attachment to vehicles
- Five group frequencies available to order allowing multiple sequenced chains to operate within the same area – yellow (default), blue, green, orange, beige

| Part No | Colour | Description |

| PLSFYR/R-KIT10-R | Red | Set of 10 Flares in Charging Dock |

PORTABLE LED BEACON

- Compact and portable 360° LED light
- 24 super bright LEDs
- Magnetic base
- Dimensions: H121mm x D104mm
- Operates on 2 D batteries (not included)
- Switch activated Day/Night function allows beacon to automatically turn on in low light situations

| Part No | Colour | Flash Pattern |
|---------|---------|---------------|
| PL24AM | ● Amber | Triple Flash |

PERSONAL SAFETY LIGHTS

- Ideal for running, bike riding, warehouse work etc.
- 5 high intensity LEDs
- Features rear clip for easy mounting
- Dimensions: H66mm x W40mm
- Operates on 2 AAA batteries (not included)
- Includes bike bracket and arm band

| Part No | Colour | Flash Pattern |
|---------|---------|----------------------------------|
| PSLR | ● Red | 6 Patterns including Constant On |
| PSLA | ● Amber | 6 Patterns including Constant On |
| PSLG | ● Green | 6 Patterns including Constant On |

MINI PERSONAL SAFETY LIGHTS

- 4 high intensity LEDs
- Dimensions: H65mm x W34mm
- Operates on 2 AAA batteries (not included)
- Hard Hat Kits: 1 light and 1 mounting bracket

| Part No | Colour | Flash Pattern |
|---------|---------|---|
| SL34R | ● Red | Static (constant on), flashing or chasing |
| SL34A | ● Amber | Static (constant on), flashing or chasing |

| HHLK-A | ● Amber | Hard Hat Kit (1x SL34A + 1x Bracket) |

PHOENIX RECHARGEABLE HEADLAMP

- Multi-function: High, low and flashing beam
- Night mode (Red LEDs) and Night flashing mode
- Micro USB charging cable included
- 4 Hour runtime on high beam
- Motion activated high beam
- 3 Watt LED - 130 lumens
- Water resistant
- Visible up to 80 meters

Part No HLR3W

TOUGH TORCH

- Heavy Duty Aluminium body construction
- Rechargeable via micro USB (cable included)
- High intensity 30 Watt LED
- Low, High, Extreme & Ludicrous beam intensity
- Flashing & Distress functions
- Belt mountable pouch and belt clip included
- Water resistant

Part No TT306

T52 VISION SAFE TORCH

- Compact, high powered torch
- High intensity 5 Watt LED - 220 lumens
- High or low beam functions
- Adjustable beam spread
- Operates on 3 AAA batteries (included)
- Includes wrist strap and pouch

Part No T52

VISION SAFE HEADLAMP

- Multi function: Bright beam, low beam, red night light and red and white flashing functions
- Adjustable elasticated band for comfortable fit
- Operates on 3 AAA batteries (included)
- Visible up to 80 meters
- 3 Watt LED - 110 lumens
- Water resistant

Part No HL3W

56 - 66 >> SAFETY LIGHTING

TRAFFIC BATONS

- Ideal for directing traffic safely
- Convenient hand strap and belt clip
- Highly visible with LED lighting
- Multiple flash patterns for increased visibility
- TB250R features a magnet at the base and a convenient belt clip
- TB411T, TB411TRD & TB250R feature white LED torch at end of baton

REFLECTIVE WARNING TRIANGLES

- Complies with AS 3790-1992 and AS/NZS 1906.1-2007
- Reflective (no LEDs)
- Side Length: 440mm
- Set of 3 red triangles
- Folds flat
- Includes hard case for safe storage
- Weighted base for extra stability

Part No
WT3

DOME LED BEACON

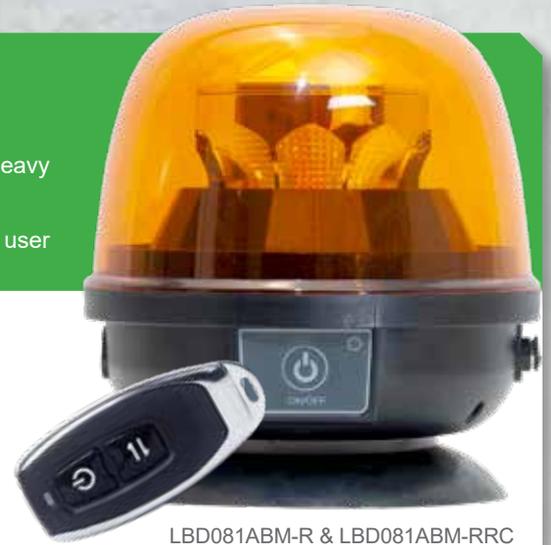

Combining versatility with ease of use, the Dome LED Beacon is sure to impress.

This wireless lighting solution features a rechargeable Lithium-ion battery and a heavy duty magnetic base reinforced with a suction cup for secure mounting.

The Dome LED Beacon is available with a convenient remote control to allow the user to activate or deactivate the light remotely, or cycle through flash patterns.

- Wireless Lithium-ion battery powered LED beacon
- Heavy duty magnetic base with a suction cup for secure mounting
- Available in a Remote Control version
- Speed rated up to 100km/h (subject to appropriate mounting and road conditions)
- Innovative reflector design and 10 bright LEDs
- 7 selectable flash patterns including 4 Rotating options and 3 Flashing options
- Memory function – resumes last active flash pattern when turned back on
- IP67 rated: Dustproof and Waterproof
- Operating temperature: -40°C to 65°C
- 6 hours continuous operation from full charge
- ECE R65 & SAE J845 Class 2 Compliant
- Supplied with both 12-24VDC and 240V charger
- Dimensions: H160mm x D130mm
- Peak current draw @12V: 2.08 Amps
- Also available with 3.5m curly cord with 12-24VDC plug suitable for standard automotive power outlet

LOW PROFILE LED BEACON

- IP67 rated: Dustproof and Waterproof
- CE Certified
- Hard mount with mounting pins
- Amber lens with 12 amber LEDs
- SMT 5050 3-chip PLCC LED

- Operating temperature: -25° to 75° C
- Polycarbonate UV stabilised lens and base
- Current draw @12V: 0.1 Amps
- Dimensions: H45mm x D77mm

| Part No | Colour | Operating Voltage | Flash Pattern |
|---------|---------|-------------------|---------------------------------|
| ALLPMVA | ● Amber | 10-130VDC | Single, Double, Quad, Static On |

TALL LED BEACON

- Hard mount without plug
- Polycarbonate UV stabilised lens
- Operating temperature: -20° to 85° C

- Dimensions: H130mm x D74mm
- 4 x 1 Watt LEDs
- Current draw @12V: 0.35 Amps

| Part No | Colour | Operating Voltage | Programmable Flash Pattern | LEDs |
|----------|-----------|-------------------|-----------------------------|------|
| AL2204AB | ● Amber | 12-24VDC | Double, Triple, Quad, Cycle | 4 |
| AL2204RB | ● Red | 12-24VDC | Double, Triple, Quad, Cycle | 4 |
| AL2204GB | ● Green | 12-24VDC | Double, Triple, Quad, Cycle | 4 |
| AL2204CB | ● Clear | 12-24VDC | Double, Triple, Quad, Cycle | 4 |

| AL2204MB | ● Magenta | 12-24VDC | Double, Triple, Quad, Cycle | 4 |

SMALL LED BEACON

- IP66 rated: Dustproof and Water Resistant
- CE Certified
- Hard mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Clear lens version also available
- Operating temperature: -20° to 85° C

- Magnetic Base lead length: 4m
- Speed Rating for Magnetic Base version: 120 km/h subject to appropriate mounting and road conditions
- Hard mount Dimensions: H95mm x D129mm
- Magnetic Dimensions: H110mm x D129mm
- Available in 10-130VDC/12-150VAC version
- Pole Mount adapter available

MAGENTA LIGHTING

All LED Magenta lighting comes standard with Clear LEDs and a Magenta lens. Please contact our friendly staff for further information, or visit www.visionsafe.com.au

STATIC LED BEACON

- Hard mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Current draw @12V: 0.7 Amps
- Operating temperature: -20° to 85° C
- Dimensions: H110mm x D129mm
- Polycarbonate lens and base

| Part No Magnetic | Part No Hard Mount | Colour | Operating Voltage | Flash Pattern | LEDs |
|------------------|--------------------|---------|-------------------|---------------|------|

LARGE LED BEACON

- Selectable flash patterns including rotation
- Hard mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Polycarbonate UV stabilised lens
- Speed Rating for Magnetic Base version: 120km/h subject to appropriate mounting and road conditions
- Current draw @12V: 3.2 Amps
- Operating temperature: -20° to 85° C
- Magnetic Base lead length: 4m
- Hard mount dimensions: H127mm x D161mm
- Magnetic dimensions: H145mm x D161mm
- Clear lens version also available
- 110-230VAC version also available in other colours
- Pole Mount adapter available

Also available in Dual Colour versions: Blue/Amber, Red/Amber, Red/Blue, Green/Amber

ALPHA LED WORKLIGHT

- Dual function
 - Floodlight
 - Amber or Clear LED daytime running light
- Contemporary bezel-free design
- Scratch resistant polycarbonate lens
- Highly efficient indirect reflector
- 304 Stainless Steel mounting bracket
- IP67 rated: Dustproof and Water Resistant
- 6 high intensity LEDs
- Operating voltage 10-30VDC
- Dimensions: H78 x D99 x W114mm

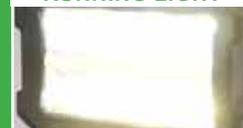

Part No
LWA5008C

CLEAR DAY TIME RUNNING LIGHT

REVERSING ALARMS

A160B

- Standard Beep alarm sound
- Plastic housing: Nylon plus 30% fibre
- IP66 rated: Dustproof and Water Resistant

- Operating temperature: -40° to 80° C
- Earthing strap
- Dimensions: H70mm x D41mm x W102mm

A160B

A170B

- Standard Beep alarm sound
- Plastic housing: Nylon plus 33% fibre
- IP66 rated: Dustproof and Water Resistant
- Operating temperature: -40°C to 80° C

- A170B-94-112 Variable model: 94dB – 112dB, dB rating changes subject to background noise
- Dimensions: H78mm x D95mm x W128mm

A170B

| Part No | Sound Cycle (pulse/minute) | Decibels | Frequency | Operating Voltage | Current Draw @ 80 V |
|--------------|----------------------------|-----------|--------------|-------------------|---------------------|
| A160B-97 | 60-65 Pm | 97 dB | 1250-1300 Hz | 12-80VDC | 0.2 Amps |
| A160B-102 | 60-65 Pm | 102 dB | 1250-1300 Hz | 12-80VDC | 0.25 Amps |
| A160B-107 | 60-65 Pm | 107 dB | 1250-1300 Hz | 12-80VDC | 0.4 Amps |
| A170B-94-112 | 60-65 Pm | 94-112 dB | 1200-1400 Hz | 12-80VDC | 0.2-0.8 Amps |
| A170B-112FA | Continuous | 112 dB | 1200-1400 Hz | 12-80VDC | 0.8 Amps |

BROADBAND REVERSING ALARM

- IP66 rated: Dustproof and Water Resistant
- Broadband/White Noise/Hiss Sound
- Plastic housing: Nylon plus 30% fibre

- Operating temperature: -40° to 80° C
- Dimensions: H70mm x D41mm x W102mm

| Part No | Sound Cycle (pulse/minute) | Decibels | Frequency | Operating Voltage | Current Draw @ 24 V |
|---------------|----------------------------|----------|--------------|-------------------|---------------------|
| A168B-1224-97 | 72-75 Pm | 97 dB | 1250-1300 Hz | 12-24VDC | 0.35 Amps |

DUAL SOUND REVERSING ALARM

- Broadband/White Noise/Hiss Sound 97dB and standard beep alarm sound 102dB in one unit
- Plastic housing: Nylon plus 30% fibre
- IP66 rated: Dustproof and Water Resistant

- Operating temperature: -40° to 80° C
- Earthing strap
- Dimensions: H70mm x D41mm x W102mm

| Part No | Sound Cycle (pulse/minute) | Decibels | Frequency | Operating Voltage | Current Draw @ 24 V |
|--------------------|----------------------------|-----------|--------------|-------------------|---------------------|
| A163B--1224-97-102 | 60-65 Pm | 97-102 dB | 1200-1300 Hz | 12-24VDC | 0.35 Amps |

WHIP AERIALS

- Perfect for a range of applications, from work vehicles and mine sites to recreational use on quad bikes and ATVs
- Sturdy fibreglass construction
- LED versions have constant on LEDs and operate on 10-30VDC
- Hi Vis Orange Nylon mesh flag w/ Silver Reflective cross
